

EdenCare at home

Our Unique Care Plan.

At Eden Care our management team have more than 50+ years experience in the care sector.

Our business was established by Dr. Jim Morrisroe in 2010.

Jim knows from personal experience that the decisions a family must take concerning the care of a family member are never easy.

" being the parent of a son with profound and multiple learning and physical disabilities I understand how difficult it can be to find the right type of support to suit the whole family and the difference in family life that the right carer can bring. Our client centered philosophy ensures close support and advice for the whole family. From initial consultation to the creation of a joint care assessment and the development of a unique care plan."

Jim Morrisroe

Our Carers...

Our dedicated Social Care Workers are committed to improving the lives of our clients. A rigorous selection process begins with identity checking and validates their qualifications and previous care experience. Only when sound references and satisfactory disclosure from the Disclosure and Baring Service are received will a carer be matched for compatibility with a client. We provide our carers with ongoing internal and external training overseen by our in house training team.

A More Caring Approach to Care at Home

At Eden Care we offer quality care at home for you, or your loved one.

We are committed to making a difference, supporting our clients achieve optimum levels of independence, health and well-being.

Eden Care is an independent, local provider of care. We understand the importance of choice and so, together with you, we create a unique, tailored care package focusing on your individual needs.

Our Services...

...Care at Home

Whether you are looking for emergency care, short-term respite, convalescent home care, companionship or a long term care arrangement, Eden Care at home can offer a solution to stay in your own home.

We offer a flexible approach to suit you, fitting around your needs and routines, from a 30 minute a week visit to full time live in care from our professional trained carers. Care is flexible and can be increased or reduced to suit changing needs and circumstances. If you are

unhappy with your current provider we can assist you with your care immediately.

We have experience in providing care services to a range of clients: from the elderly, to children and young adults, those recuperating from surgical procedures, to people with dementia and physical and or learning disabilities.
